Development and Implementation of the CAHPS Hospital Survey

Charles Darby
March 30, 2006

Rationale for Developing the CAHPS Hospital Survey

- Desire to include the H-CAHPS Survey in the Hospital Quality Alliance Voluntary Reporting Initiative
- Acceptance of the importance of the patient’s perspective on the quality of health care
- Need for a standardized survey to allow meaningful comparisons across hospitals
Comparability of Measurement

- A number of established surveys in use
- But needed a survey to provide valid and meaningful comparisons across hospitals

Goals of the H-CAHPS Survey

- Provide reliable data for public reporting on quality of care in hospitals from the patient’s perspective
- Provide an incentive for hospitals to improve the quality of care
Hospital Quality Alliance

- American Hospital Association
- Federation of American Hospitals
- American Association of Medical Colleges
- Joint Commission
- Disclosure Group
- American Nurses Association
- American Medical Association
- Centers for Medicare and Medicaid Services
- Agency for Healthcare Research and Quality

The H-CAHPS Survey Development Team

- Centers for Medicare and Medicaid Services
- Agency for Healthcare Research and Quality
- Harvard
- RAND
- American Institutes Research
- Westat
Making the H-CAHPS Survey Credible

- Issue call for measures
- Review the literature
- Conduct cognitive testing in English and Spanish
- Conduct 3 State Pilot Test
- Implement additional testing in voluntary test sites

Making the H-CAHPS Survey Useful

- Conduct qualitative research with consumers
- Include reports development
Making the H-CAHPS Survey Practical

- Hold stakeholder meetings
- Conduct discussions with hospitals
- Hold vendor meetings
- Conduct web chat
- Solicit public comment

Making the H-CAHPS Survey Practical

- Conduct additional testing
- Hold conversations with hospitals
- Offer testing opportunities to hospitals and vendors
- Follow up with 3 State Pilot hospital participants
