INTRODUCTION

Centers for Medicare & Medicaid Services

The Centers for Medicare & Medicaid Services (CMS) is a federal agency within the United States Department of Health and Human Services (DHHS). CMS manages several national health care programs, including the Medicare and Medicaid programs, and evaluates the quality of health care facilities and services for Medicare and Medicaid beneficiaries.

CMS also directs a national network of 53 Quality Improvement Organizations (QIOs) in each state and territory of the United States and the District of Columbia. The mission of the QIOs, as set forth by the Social Security Act and amended by the Peer Review Improvement Act of 1982, is to improve the effectiveness, efficiency, economy, and quality of services delivered to the Medicare beneficiaries. The QIOs work with consumers, physicians, hospitals, and other health care providers to ensure that patients receive appropriate care at the precise time it is needed.

GMCF

The Georgia Medical Care Foundation, or GMCF, is the QIO for the state of Georgia. Through the 9th Scope of Work (SOW) contract, awarded on August 1, 2008, GMCF conducts activities designed to improve the quality of care for Medicare beneficiaries in Georgia through collaboration with stakeholders from various health care provider and beneficiary associations.

Nursing Home Survey

The nursing home survey is an expansion of the Agency for Healthcare Research and Quality’s (AHRQ) Hospital Survey on Patient Safety Culture [www.ahrq.gov/qual/hospculture]. It was specifically designed to measure the culture of resident safety in nursing homes (NH) from a staff perspective. AHRQ NH Survey assesses staff attitudes, beliefs about resident safety and many areas similar to the hospital survey. AHRQ NH survey was pilot tested in 2007 in 40 U.S. nursing homes with 3,698 respondents. The final survey was released on AHRQ Web site in 2008. The Utilization & Compliance Review (UCR) of GMCF administered the AHRQ NH survey on May 19, 2009 at ……… Survey areas included overall perceptions of resident safety, organizational learning, training and skill, and compliance with procedures, among many other categories. The nursing home staff was encouraged to stop by and complete the survey. Participants were also asked to provide comments and suggestions (see Appendix A for evaluation).
RESULTS

__________employs 150 day, evening, and night shift employees. 88 Staff members completed the AHRQ NH survey for a response rate of 59%. ________home received an overall score on staff perception in resident safety of 72% (see appendix B for graphs).

* Composite scores are not calculated when any item in the composite has fewer than three respondents.
Demographic Data about Respondents for _________ home

1. Staff position in the Nursing Home:
   - 6% Administrator/Manager
   - 0% Physician
   - 1% Other Provider
   - 30% Licensed Nurse
   - 5% Other, please specify
   - 40% Nursing Assistant/Aide
   - 4% Direct Care Staff
   - 6% Administrative Support Staff
   - 8% Support Staff

2. Work area in the Nursing Home:
   - 62% Many different areas or units in the nursing home / No specific area or unit
   - 6% Alzheimer's / Dementia Unit
   - 6% Rehab Unit
   - 19% Skilled nursing unit
   - 7% Other area of unit (please specify)

3. Tenure with Nursing Home:
   - 0% Less than 2 months
   - 7% 2 to 11 months
   - 15% 1 to 2 years
   - 22% 3 to 5 years
   - 24% 6 to 10 years
   - 32% 11 years or more

4. Hours Worked per Week:
   - 2% 15 or fewer hours per week
   - 0% 16 to 24 hours per week
   - 81% 25 to 40 hours per week
   - 16% More than 40 hours per week

5. Time of Work:
   - 71% Days
   - 20% Evenings
   - 9% Nights

6. Percentage of Respondents Paid by Staffing Agency: 4%

7. Percentage of Respondents with Direct Interaction or Contact with Residents: 81%
CONCLUSION

In May 2009, GMCF administered the AHRQ NH survey. 88 People completed the survey, giving a response rate of 59%. The home staff’s overall perception of resident safety was 81%. Of the respondents, 60% would recommend this nursing home to a friend or a family member. Some areas emerged that may need improvement: Staffing issues, communication openness and teamwork (see appendix C for participants’ comments). Most respondents gave the home an overall very good or good rating on patient safety (see appendix B for graphs).
APPENDICES
APPENDIX A
# Nursing Home Survey on Patient Safety

In this survey, **resident safety** means preventing resident injuries, incidents, and harm to residents in the nursing home.

This survey asks for your opinions about resident safety issues in your nursing home. It will take about 15 minutes to complete.

To mark your answer, just put an X or a √ in the box: [X] or [√].

If a question does not apply to your job or you do not know the answer, please mark the box in the last column. If you do not wish to answer a question, you may leave your answer blank.

APPENDIX B
Nursing Home Recommendation

I would tell friends that this is a safe nursing home for their family. (Survey item E1)

Overall rating on resident safety

Please give this nursing home an overall rating on resident safety. (Survey item E2)
Comparison with 40 Pilot Study Nursing Homes

I would tell friends that this is a safe nursing home for their family. (Survey Item E1)

![Bar chart showing responses to survey item E1]

Please give this nursing home an overall rating on resident safety. (Survey item E2)

![Bar chart showing responses to survey item E2]
APPENDIX C
**POSITIVELY WORDED ITEMS**
This is an example of a positively worded item. For this item, the percentage who answered “Strongly Agree/Agree” is shown in green (positive response), “Neither” in yellow, and “Strongly Disagree/Disagree” (negative response) in red.

Survey Item
We have enough staff to handle the workload. (A3)

![Diagram showing survey results]

- **Green** = the most positive answers (better survey results)
- **Yellow** = in-between answers
- **Red** = the least positive answers (worse survey results)

These 3 sections add up to 100% of all answers (Totals may not sum to 100% due to rounding of decimals)

The more “green” the better the results

**NEGATIVELY WORDED ITEMS**
This is an example of a negatively worded item. The percentage who answered “Strongly Disagree/Disagree” is shown in green (positive response), “Neither” in yellow, and “Strongly Agree/Agree” (negative response) in red.

Survey Item
Staff have to hurry because they have too much work to do. (A3R)

![Diagram showing survey results]

Negatively worded items are identified with the letter R.

The more “green” the better the results

This item is negatively worded so the percentage who answered “Strongly Disagree/Disagree” is shown in green (positive response), “Neither” in yellow, and “Strongly Agree/Agree” (negative response) in red.
