HCUP Is a Family of Databases, Tools, and Products

Administrative Data

The Flow of Inpatient Admissions

General File Structure for Hospital Administrative Data

- **Range of file sizes**
 - ~ 55,000 to 4.0 million records, depending on state
- **Core set of variables**
 - Generally available across most states
- **State-specific variables**
 - Vary by state
 - Allow specific analyses to be done
 - Patient race/ethnicity – to examine disparities
 - Encrypted patient identifier – to examine readmissions

What Core Data Elements Are Included in Administrative Data?

UB-04 Billing Form

PREMIER BILLING SERVICE 234 Seaway St COLUMBIA, MO 65202		PATIENT CONTROL NO. 72255589		4 TYPE OF BILL 111	
3055753333		STATEMENT COVERS PERIOD FROM 19981222		7 COVD 8 NCD 9 C/D 10 LRD 11	
12 PATIENT NAME BARNES, ANNA L		13 PATIENT ADDRESS 400 LINCOLN AVE DENVER, CO 80211			
14 BIRTHDATE 19691125		15 SEX F		16 01 AAAAAAAAAAAAAAAAAA	
17 DEF 20040115		18 ADMISSION 08 B 1		23 MEDICAL RECORD NO.	
19 OCCURRENCE DATE 01 20040226		20 OCCURRENCE DATE 02 20040226		21 OCCURRENCE DATE 03 20040226	
22 OCCURRENCE DATE 04 20040226		23 OCCURRENCE DATE 05 20040226		24 OCCURRENCE DATE 06 20040226	
25 OCCURRENCE DATE 07 20040226		26 OCCURRENCE DATE 08 20040226		27 OCCURRENCE DATE 09 20040226	
28 OCCURRENCE DATE 10 20040226		29 OCCURRENCE DATE 11 20040226		30 OCCURRENCE DATE 12 20040226	
KEY INSURANCE COMPANY 234 Seaway St Miami FL 33111		31 VALUE CODES 01 12.99 02 12.99 03 12.99		32 VALUE CODES 04 12.99 05 12.99 06 12.99

36 REV CD		37 DESCRIPTION		38 HCPCS / RATES	
39 SERV DATE		40 SERV UNITS		41 TOTAL CHARGES	
42 NON-COVERED CHARGES		43		44	
272		Morphine sulfate injection		J2275 20040227 2 802.00 100.01	
250		Abdoml drssng holder/binder		A4462 20040228 1 354.49 100.02	
258		Abdominal pad		L1270 20040229 1 949.68 100.03	
270		Local/topical anesthetics		A4735 20040301 1 112.02 100.04	
300		Apnea monitor		E0608 20040302 1 375.50 100.05	
280				20040303 1 200.45 100.06	
0001				2794.14 600.21	

Patient demographics
(age, sex)

Diagnoses & procedures
(ICD-9-CM, DRG)

Expected payer

Length of stay

Patient disposition

Admission source & type

Dates of admission and
discharge

Hospital identifiers

What are Some State-Specific Data Elements?

- Race/Ethnicity
- Patient county
- Patient ZIP Code
- Severity of illness
- Birthweight
- Procedure date (days from admission)
- Primary payer details
- Secondary payer
- Detailed charges
- Patient identifiers, encrypted
- Physician identifiers, encrypted
- Physician specialty

Advancing
Excellence in
Health Care

Example: Payer Detail Varies by State

H·CUP
HEALTHCARE COST AND UTILIZATION PROJECT

PAY1_X		PAY1 (HCUP Standard)	
Value	Description	Value	Description
M	Medicare	1	Medicare
D	Medicaid	2	Medicaid
P	Blue Cross and Blue Shield	3	Private Insurance
I, S	Other Insurance Comp; Self Ins		
H	HMO-PPO		
P	Self-pay	4	Self-pay
Z	Free	5	No charge
W	Workers' Comp	6	Other
C	CHAMPUS		
E, N	Other Government		
L, O	Other		Missing
3, 5, A, F, G, J, K, Y	Unknown		
Other values		A	Invalid

Hospital Billing Data Have Benefits and Limitations

Benefits

- Large sample size
- Uniformity of coding
- Routine, regular collection
- Ease of access
- All-payer
- Available at local, state, regional, national level

Limitations

- Differences in coding across hospitals
- No data on individuals outside of hospital system
- May not show complete episode of care
- May not include all hospitals
- Lack revenue information
- Sparse clinical details

Accessing Data

- Your own state data organization can provide:
 - Most recent data
 - Data elements not released outside government
 - e.g., patient identifiers, physician identifiers, linkage variables
- To compare your data with other states:
 - Obtain HCUP-formatted, uniform files through HCUP Central Distributor
 - Obtain other states' data directly from other states
 - Can access summary statistics through HCUPnet
- National benchmarks

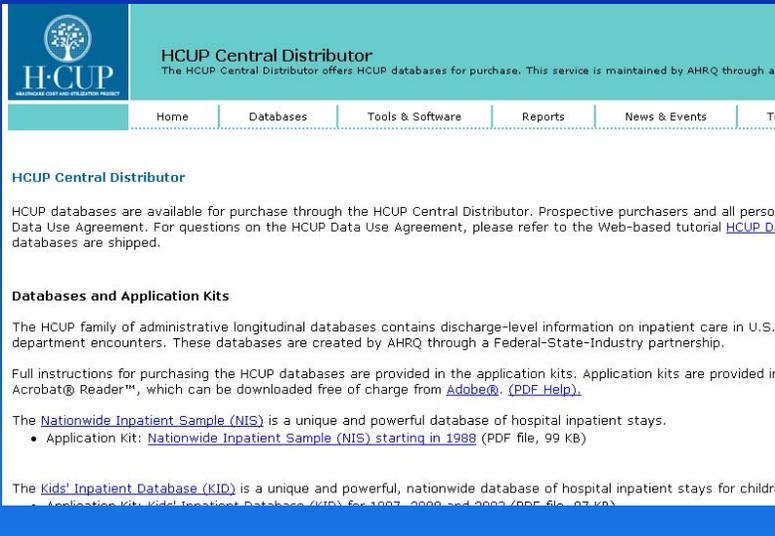

Advancing
Excellence in
Health Care

Obtain HCUP Data – Two Methods

H·CUP
HEALTHCARE COST AND UTILIZATION PROJECT

HCUP Central Distributor
The HCUP Central Distributor offers HCUP databases for purchase. This service is maintained by AHRQ through a...

Home | Databases | Tools & Software | Reports | News & Events | Technical Assistance

HCUP Central Distributor

HCUP databases are available for purchase through the HCUP Central Distributor. Prospective purchasers and all persons who purchase HCUP databases must agree to the HCUP Data Use Agreement. For questions on the HCUP Data Use Agreement, please refer to the Web-based tutorial [HCUP Data Use Agreement](#). HCUP databases are shipped.

Databases and Application Kits

The HCUP family of administrative longitudinal databases contains discharge-level information on inpatient care in U.S. hospital department encounters. These databases are created by AHRQ through a Federal-State-Industry partnership.

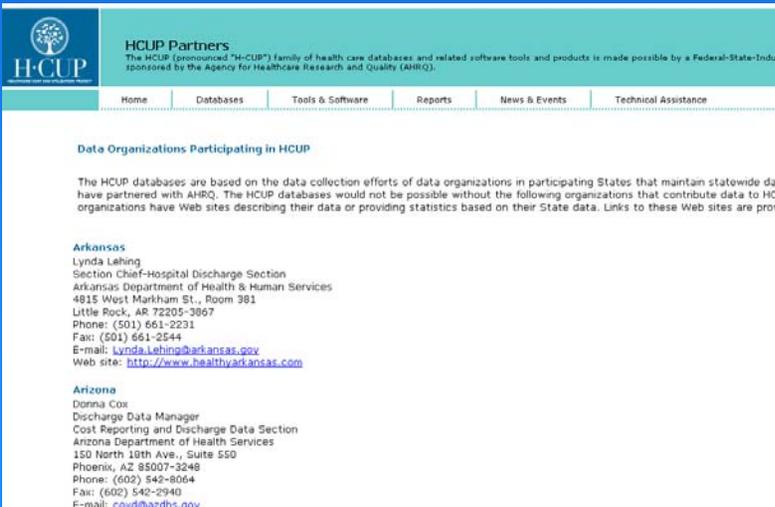

Full instructions for purchasing the HCUP databases are provided in the application kits. Application kits are provided in Adobe® Reader™, which can be downloaded free of charge from [Adobe®](#). ([PDF Help](#)).

The [Nationwide Inpatient Sample \(NIS\)](#) is a unique and powerful database of hospital inpatient stays.

- Application Kit: [Nationwide Inpatient Sample \(NIS\) starting in 1988](#) (PDF file, 99 KB)

The [Kids' Inpatient Database \(KID\)](#) is a unique and powerful, nationwide database of hospital inpatient stays for children.

Application Kit: [Kids' Inpatient Database \(KID\) for 1997, 2000, and 2003](#) (PDF file, 97 KB)

HCUP Partners
The HCUP (pronounced "H-CUP") family of health care databases and related software tools and products is made possible by a Federal-State-Industry partnership sponsored by the Agency for Healthcare Research and Quality (AHRQ).

Home | Databases | Tools & Software | Reports | News & Events | Technical Assistance

Data Organizations Participating in HCUP

The HCUP databases are based on the data collection efforts of data organizations in participating States that maintain statewide data and have partnered with AHRQ. The HCUP databases would not be possible without the following organizations that contribute data to HCUP. Each organization has a Web site describing their data or providing statistics based on their State data. Links to these Web sites are provided below.

A scientist wearing a white lab coat and a white face mask is working in a laboratory. The scientist is holding a syringe and is positioned next to a complex piece of laboratory equipment. The equipment includes a metal stand with a horizontal arm, a syringe mounted on the arm, and various tubes and wires connected to the system. A red container is visible in the background. The text "Nationwide Inpatient Sample (NIS)" is overlaid in yellow on the lower part of the image.

**Nationwide Inpatient
Sample (NIS)**

What Is the Nationwide Inpatient Sample (NIS)?

Purpose of the NIS

Allows national and regional studies of inpatient hospital utilization and charges – generates national estimates

Not recommended for state-level analyses

Advancing
Excellence in
Health Care

Statewide Data Systems Participating in NIS

H·CUP
HEALTHCARE COST AND UTILIZATION PROJECT

Data Year	# of States	States
1988	8	CA, CO, FL, IA, IL, MA, NJ, WA
1989-1992	11	+ AZ, PA, WI
1993-1994	17	+ CT, KS, MD, NY, OR, SC
1995-1996	19	+ MO, TN
1997-1998	22	+ HI, UT, GA
1999	24	+ ME, VA
2000	28	+ KY, NC, TX, WV
2001	33	+ MI*, MN, NE, RI, VT
2002	35	+ NV, OH, SD [AZ not available]
2003	37	+ AZ, IN, NH [ME not available]
2004	37	+ AR [PA not available]
2005	37	+OK [VA not available]
2006	38	+VA

The NIS Can Be Used for Many Purposes

- **Use of and charges for hospital services**
- **Medical practice variation**
- **Medical treatment effectiveness**
- **Quality of care and patient safety**
- **Impact of health policy changes**
- **Diffusion of medical technology**

**Provides national and regional benchmarks to
compare your own experience**

Comorbidity Software*

The Comorbidity Software is based on the ICD-9-CM coding scheme. This software creates about 30 variables that identify major comorbidities.

* Elixhauser A, et al. *Medical Care*, Jan. 1998.

Appends Indicator Flags for Each Comorbidity to Records

- Congestive heart failure → **CM_CHF = 0 or 1**
 - Valvular disease → **CM_VALVE = 0 or 1**
 - Pulmonary circulation disorders
 - Peripheral vascular disorders
 - Hypertension (uncomplicated and complicated)
 - Paralysis
 - Other neurological disorders
 - Chronic pulmonary disease
 - Diabetes without chronic complications
 - Diabetes with chronic complications
 - Hypothyroidism
 - Renal failure
 - Liver disease
 - Chronic peptic ulcer disease
- 30 flags
created and
appended to
each record**

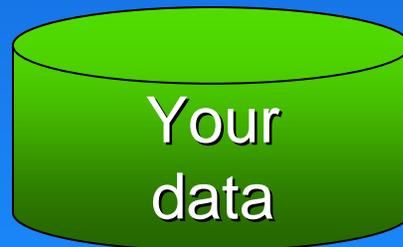

Appends Indicator Flags for Each Comorbidity

- HIV and AIDS
- Lymphoma
- Metastatic cancer
- Solid tumor without metastasis
- Rheumatoid arthritis/collagen vascular diseases
- Coagulation deficiency
- Obesity
- Weight loss
- Fluid and electrolyte disorders
- Blood loss anemia
- Deficiency anemia
- Alcohol abuse
- Drug Abuse
- Psychoses
- Depression

HCUPnet – On-line Query System

Advancing
Excellence in
Health Care

HCUPnet: Quick, Free Access to HCUP Data

H·CUP
HEALTHCARE COST AND UTILIZATION PROJECT

- Free, interactive online query system
- Users generate tables of outcomes by diagnoses and procedures
- Data can be cross-classified by patient and hospital characteristics
- Includes national, regional, and state data (for states that choose to participate)

<http://hcup.ahrq.gov/hcupnet>

HCUPnet Can Answer a Variety of Questions

- **What percentage of hospitalizations for children are uninsured, by state?**
- **What are the most expensive conditions treated in U.S. hospitals?**
- **What is the trend in admissions for depression?**
- **Will there be sufficient cases to do my analysis?**
- **How do my estimates compare with HCUPnet (validation)?**

- AHRQ Home
- Questions?
- Contact Us
- Site Map

Welcome to HCUPnet

HCUPnet is a free, on-line query system based on data from the Healthcare Cost and Utilization Project (HCUP). It provides access to health statistics and information on hospital inpatient and emergency department utilization.

HCUPnet Demonstration

Begin your query here -

Statistics on Hospital Stays

National Statistics on All Stays

Create your own statistics for national and regional estimates on hospital use for all patients from the HCUP Nationwide Inpatient Sample (NIS). Overview of the Nationwide Inpatient Sample (NIS)

National Statistics on Mental Health Hospitalizations

Interested in acute care hospital stays for mental health and substance abuse? Create your own national statistics from the NIS.

State Statistics on All Stays

Create your own statistics on stays in hospitals for participating States from the HCUP State Inpatient Databases (SID). Overview of the State Inpatient Databases (SID)

National Statistics on Children

Create your own statistics for national estimates on use of hospitals by children (age 0-17 years) from the HCUP Kids' Inpatient Database (KID). Overview of the Kids' Inpatient Database (KID)

National and State Statistics on Hospital Stays by Payer - Medicare, Medicaid, Private, Uninsured

Interested in hospital stays billed to a specific payer? Create your own statistics for a payer, alone or compared to other payers from the NIS, KID, and SID.

Quick National or State Statistics

Ready-to-use tables on commonly requested information from the HCUP Nationwide Inpatient Sample (NIS), the HCUP Kids' Inpatient Database (KID), or the HCUP State Inpatient Databases (SID).

Statistics on Emergency Department Use

State Statistics on All ED Visits

Create your own statistics on emergency department visits for participating States from the HCUP State Emergency Department Databases (SEDD) and the SID. Overview of the State Emergency Department Databases (SEDD)

Quick State Statistics

Ready-to-use tables on commonly requested information from the SEDD and SID.

Hospitals Like Mine (Beta Version)

Statistics on U.S. Hospitals

Create your own statistics on various types of hospitals that resemble the hospital you visit or the hospital you study - What types of patients are

First Time Visitor?

- How does HCUPnet work?
- HCUPnet tutorial
- HCUPnet methodology?

What's New?

- 2005 nationwide data on AHRQ Quality Indicators.
- 2006 data for Kids' Inpatient Database (KID).
- New cost information for national hospital stays for 2006.
- 2006 nationwide data now available.
- Hospitals Like Mine - new query path provides information by hospital type.
- 2006 data for selected States.
- 1997 and 2005 data on hospital stays for mental health and substance abuse.
- Information on use of Emergency Departments from selected States.

More information on HCUP data, tools, and reports

What is HCUP?

Brief description - what is HCUP?
Want to purchase data to do your own analysis?

The statistics in HCUPnet would not be possible without statewide data collection projects that provide data to HCUP.

- Find detailed information on HCUP databases, tools, and products
- Access HCUPnet
- Find comprehensive listing of HCUP-related publications, database reports, and fact books
- Access technical assistance

<http://www.hcup-us.ahrq.gov>

Using HCUP Technical Assistance

Active Technical Assistance

- Responds to inquiries about HCUP data, products, and tools
- Collects user feedback and suggestions for improvement

E-mail: hcup@ahrq.gov

Phone: (866) 290-HCUP
